Ozadya is a group of 7 artists from Geneva -Switzerland- including 6 beatmakers/DJ and one MC/beatmaker.

Ozadya's main musical style is «Favela Trap», it is a sweet mix between Baile Funk and Trap/Hip-Hop. Despite having a main music genre each artist has it's own style of predilection going from funk to rap and house music.

The group was created end of October 2016 and since then participates in lots of events in Geneva and is expanding throuhout all Switzerland and outside it's borders.

With 3 EP fully produced by Ozadya and various collaborations with artists such as Di-Meh (SuperWakClique), Danitsa or even Sawmal (Rive Magenta), our team has learned how to work with other artists and showed itself professional despite the young age of the collective.
